SUMMARY

BCA student with a strong interest in Full Stack Development and AI-based applications. Skilled in HTML, CSS, and JavaScript with hands-on experience in building responsive websites and forms. Recently developed an AI-based LinkedIn Professional Coach agent and completed training in LLM workflows. Passionate about creating practical and user-friendly solutions.

Projects

1. Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML and CSS
- Created structured navigation (Home, About, Skills, Contact)
- Focused on clean UI and user-friendly layout

2. Student Registration Form

- Built a complete registration form using HTML and CSS
- Implemented input fields, validation structure, and user-friendly design
- Practiced real-world form handling concepts

3. LinkedIn Professional Coach (AI Agent)

- Developed a basic AI agent to guide users in improving LinkedIn profiles
- Utilized LLM concepts and workflow-based approach
- Provided suggestions for profile optimization and professional growth
